

TravelWayne New User Interface

The new user interface was launched on January 31, 2015. The purpose was to develop a more intuitive interface that allow users to accomplish more in less time with the following goals in mind:

- Modernize the user experience/increase usability
- Maintain ability to apply/enforce University Policies
- Implement with minimal impact
- Allow effortless navigation and access for all web and mobile devices

What is changing?

The changes are mostly to the look and feel of the application with very little change to the core functionality. There is also an introduction of a “Work to Zero” concept driven by a dashboard on the homepage that highlights tasks that need to be accomplished.

What is not changing?

The core functionality remains the same as this is mainly an interface redesign to make navigation easier. The basic procedural process steps remain unchanged.

Additional Resources

You can access additional help by navigating to the Training tools under the Help menu in TravelWayne on the far right side of the home page and you can use the following resource for more detailed information:
